

# Thanks to some of our partners for helping us create an impact in the world!

Throughout the Pandemic & chaos caused by Covid, we have been able to distribute containers full of equipment to those around the Pacific who need it most. We couldn't have done this without the input from our partners.

This most recent container to Tonga is filled with equipment from Waitemata DHB and Cubro. We've been working with both of those fabulous organisations for several years now and appreciate not only the equipment they send our way, but the great working relationship we have with their teams.

PFL have been part of the TMH whanau for just over a year now. Thanks to their involvement we've sent containers to Tuvalu, Tonga and Samoa. They've held on to equipment for us while it's being collected and readied for our shipments, and their brilliant team have loaded containers, like the Tetris masters they are! Their team are fantastic and we appreciate both the work they do with us, and how easy their team make the sometimes challenging juggle of putting a project together.

We have been working with PBT for over 7 years now. Across that time, they have collected equipment from all over the country, including several really large loads of cots and beds which are now being used by our partners in the Islands. They have also helped us get our containers to the port. A vital piece of our work. We couldn't do what we do without them! So if you have any trucking, couriers, or container moving to do, we highly recommend getting in touch with the team at PBT.

**TMH has partnered with the Rotary Club of New Market & together we are working with the team at the Ministry of Health in Samoa to collect & distribute medical equipment & supplies - specifically focusing on paediatric needs.**
