

With a commitment to honouring the intrinsic value of all materials and moving them back into the community wherever possible, Junk Run is a champion for sustainability. We are so pleased to be working with them as our Values and Vision align so closely!

“WHAT DO I DO WITH MY OLD ARTIFICIAL LIMB?”

Did you know that components of prostheses can **help others** get their life back?

If you have a prosthesis that is no longer being used, join the hundreds of others who have already **donated** theirs to those in need in the Asia Pacific Region.

Talk to our staff to learn more about **recycling** your prosthesis.

New Zealand Artificial Limb Service

Rotary  Club of Newmarket (Inc)

Rotary has been a strong partner for Take My Hands, offering full & partial funding for multiple containers over the years, as well as volunteers on the ground to help load! With Rotary's help, we have been able to help thousands of people throughout the Pacific, including in Vanuatu, Samoa, & Tonga
